

DRAMMATIC[®] organic[™]

for Dramatic Results on Vegetables,
Flowers, Fruits

available in
quarts & gallons

Dramm is leading an environmentally sound program by recycling fish scraps, that would otherwise fill landfills, into an effective and environmentally friendly fertilizer called Drammatic[®] organic[™].

Drammatic organic fertilizers are made from fresh fish scraps processed at low temperatures (90°F - 120°F) to preserve the naturally occurring amino acids, vitamins and enzymes that are so essential in feeding soil microbes, earthworms, and plants.

Our environmentally friendly Drammatic[®] fertilizers are processed under the guidelines of the USDA organic program. Drammatic organic fertilizer is OMRI listed for use on organic, sustainable or conventional crops.

Earth Friendly Fertilizer
fresh fish scrap that
otherwise fills landfills
or overloads sanitation
systems

All Purpose Fertilizer
effective on vegetables,
flowers, fruits

Made in America
renewable, clean,
aquatic source

Certified for
Organic Growing
guaranteed quality &
safety

DRAMMATIC[®] Organic[™] Premium 4 - 4 - 1 OMRI listed

Rebranding of Drammatic "ONE" 4-4-1
& Drammatic Complete 4-4-1

Contains naturally occurring amino acids, enzymes, and vitamins along with natural nitrogen, phosphorus, potassium, calcium, and other minor elements. Supplemented with kelp, which provides beneficial phytohormones and fulvic acid, which aids in the absorption of nutrients.

DRAMMATIC[®] Organic[™] Fertilizer with Kelp 2 - 4 - 1 OMRI listed

Rebranding of Drammatic "K" 2-5-1

Contains all the naturally occurring nutrients of fish with the addition of Kelp. Kelp adds cytokines, auxin, and abscisic acid, which are phytohormones responsible for germination, cell enlargement, bud formation and root initiation.

DRAMMATIC[®] Organic[™] Original 2 - 4 - 1 OMRI listed

Rebranding of Drammatic "O" 2-5-1

Produced from fish scrap containing naturally occurring amino acids, enzymes, phosphorus, potassium, calcium, and other minor elements. Our original blend produces exceptional plants.
